

# ENVIRONMENTAL SUSTAINABILITY POLICY 2015

---

<b>TITLE:</b>	<b>ENVIRONMENTAL SUSTAINABILITY POLICY 2015</b>
<b>RESPONSIBLE OFFICER:</b>	<b>MANAGER ENGINEERING &amp; REGULATORY SERVICES</b>
<b>APPROVED BY COUNCIL:</b>	<b>16 OCTOBER 2001</b>
<b>RESOLUTION NO:</b>	<b>233/2001</b>
<b>AMENDED ON:</b>	<b>21 JULY 2015</b>
<b>RESOLUTION NUMBER:</b>	<b>117/2015</b>
<b>REVIEW DATE:</b>	<b>2019 (EVERY FOUR YEARS)</b>

---

## 1. POLICY STATEMENT

Sorell Council, in partnership with its community, will demonstrate leadership in achieving best practice in Environmental Sustainability. Environmental Sustainability is the maintenance of functioning natural ecosystems, as well as the control of pollutants and toxins in environments including residential, rural and agricultural areas. It is the concept of humans living in a fashion that they use natural resources balanced by the ability of the natural world to generate resources while enhancing the living requirements of other organisms on earth.

## 2. PRINCIPLES

Sorell Council will demonstrate leadership, model behaviour and achieve best practice in working with staff, contractors and the community by:

- increasing awareness of and behaviour change towards greater environmental sustainability;

- working in partnership with the community to develop programs and initiatives that improve environmental sustainability in Sorell;
- consider climate change risks and impacts in the implementation of this policy;
- adoption of work practices that minimise environmental impacts from Council's civil works and the operation of existing assets. In particular coastal and scenic values such as the Pitt Water Orielton Lagoon RAMSAR site;
- adopt an Environmental Management System (EMS) that integrates the principles of continual improvement in environmental performance across all operations;
- consideration of environmental issues when purchasing goods and services;
- minimisation and/or avoidance of waste;
- practicing and promoting ecologically sustainable development principles (ESD) in the planning and development of the municipality;
- adopting and promoting patterns of production, consumption and reproduction that minimise consumption of natural resources, recycling what we use and replacing non-renewable resources with renewable resources;
- improving the quality of air, land and water for current and future generations;
- researching, planning and taking action for changing environmental conditions and threats;
- monitoring environmental performance outcomes and regularly reviewing and updating environmental policies, strategies and management plans;
- collaborating with other Local Governments in support of environmental sustainability;
- advocating to State and Federal Governments and other Local Governments for improvements to environmental policies and regulations; and
- abiding by any relevant Federal, State and Local Government environmental legislation.

### **3. AUTHORISATION**

This policy is managed by the General Manager, Sorell Council, and is approved by:

..... GENERAL MANAGER, SORELL COUNCIL

..... MAYOR, SORELL COUNCIL

### **4. REVISION DATE/RELEVANT POLICIES SUPERSECEDED**

This policy will be reviewed and presented to Council 26th July 2015 and then every four years thereafter.

This policy replaces the Environmental Policy 16 October 2001.

### **5. ROLES AND RESPONSIBILITIES**

It is ultimately the responsibility of Councillors, GM, Management and staff to develop a culture that values the principles of environmental sustainability and embeds them in decision making processes.

It is the responsibility of all Councillors, staff and contractors to understand the concepts and principles of environmental sustainability outlined in this policy and to apply these principles in all planning, decision-making, activities and reporting.
