

WHAT YOU SHOULD PLACE in your kerbside recycling bin

PAPER

- All types of paper including magazines, pamphlets, note pads, envelopes and office paper
- ☑ Remove soft plastic from newspapers and magazines before placing into your recycle bin

CARDBOARD

- All types of cardboard including archive boxes, food boxes and packing boxes – as long as it is dry.
- ☑ No waxed cardboard (you can often tell this as the cardboard will not tear easily)
- ☑ Remove food scraps

PLASTIC

- Bottles and containers
- Labels are ok to stay on
- ☑ Lids off
- ☑ Bottles and containers to be free of liquid/contents
- Yoghurt and fruit punnet containers are recyclable too

STEEL

- Food containers and empty aerosol cans
- No need to rinse out steel containers but you must remove food liquid

ALUMINIUM

- Foil, drink cans and empty aerosol cans
- Remember to scrunch foil into a loose ball so it can be recycled at the processing facility

GLASS

- Bottles and jars
- Keep unbroken where possible
- Lids off

WHAT YOU CANNOT PLACE in your kerbside recycling bin

These items are classed as contamination and can reduce the quality of items recovered, interfere with the sort process and harm our workers.

Ceramics (such as dining plates & bowls)

Bagged recycling (recyclables should be placed loose into the recycling bin)

Plastic bags & other soft plastics such as film & wrappers

Takeaway cups & coffee cups

Juice boxes & long-life cartons

Tissues, napkins & paper towel

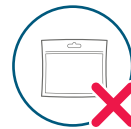

Batteries of any kind

Electronic items (e-waste)

Building & garden waste

Plastic pouches

Food scraps

Liquids

Nappies

Clothing & shoes

Linen/bedding

Foam & polystyrene

Medical waste

Gas cylinders

Large sheets of metal

Pyrex (heat resistant glass)

Window & drinking glass

If you want to recycle anything not listed above, please check with your local council before recycling.

There may be specialist recycling programs available in your area to collect and process items not accepted through the kerbside system.
